

THE TEXAS VANPOOL CENSUS
April 1982

TEXAS ENERGY AND NATURAL RESOURCES ADVISORY COUNCIL
200 EAST 18TH STREET, AUSTIN, TEXAS 78701

THE TEXAS VANPOOL CENSUS
January 1982

	Jan-78	Jan-79	Jan-80	Jan-81	Apr-82
PROGRAMS	14	27	64	136	141
LOCATIONS	20	31	76	148	151
VANS ON THE ROAD	196	345	1109	2572	2567
GALLONS SAVED PER YEAR (MILLIONS)	1.3	1.5	5.1	10.4	10.8
PRICE PER GALLON	\$.54	\$.63	\$1.02	\$1.31	\$1.10
DOLLARS SAVED PER YEAR (MILLIONS)	\$0.7	\$0.9	\$5.2	\$13.5	\$11.9

Despite the fact that the average price of gasoline has fallen 21¢ over the past six months, interest in vanpooling continues to grow. This is shown by the fact that the number of new programs continues to grow and requests for vanpool information have tripled. Vanpoolers cite "sticker shock" and increased parking cost as the primary reason for this interest. There is also a growing interest in third-party and multi-employer programs.

Based upon the new Census information there has been a net gain of five programs and a net loss of five vans. Most of the growth was in the Dallas-Fort Worth area. These figures indicate that overall, vanpooling remains healthy as we pass thru a period of consolidation during a temporary fuel glut. The fuel savings and passenger miles of service continue to show gains as programs exchange their 12-passenger vans for 15-passenger vans.

Any questions concerning company programs should be directed to the individual coordinators. Questions concerning the State Energy Conservation Plan and/or the various rules and regulations which may affect vanpooling should be directed to:
