

**GOAL:**

The person (team) that correctly matches the most card pairs will win the game.

**TO PREPARE THE GAME:**

Shuffle the cards, then lay them face down in rows as shown below:

**TO PLAY:**

The person/team leader whose first name starts with a letter closest to the letter “A” will go first. The player chooses two cards and turns them over, then reads the cards out loud. If they are a match, then pick up the pair of cards. The player repeats the action until he or she turns over two cards that do not match.

Moving clockwise from the first player, the next player/team takes a turn and follows the same procedure.

Continue moving clockwise around the players until all the card matches have been made and pulled from the table.

Each player/team counts the number of cards he/she collected.  
The person/team with the most cards wins!

The winner starts the next match!
